WILSON PREDICTS EQUAL SUFFRAGE IN LITTLE WHILE

President is Accorded Cordial Reception at Convention of Women

(Associated Press by Federal Wireless)

ALLANTIC CITY, N. J., Sept. 9 .-Before the annual convention of the National American Woman Suffrage Association, which has been in session here all week, President Wilson predicted the triumph of woman suffrage "in a little while." The President, who was accompanied by Mrs. Wilson, was greeted with rounds of applause both before and after his

'We have come here to fight with you and not against you," said the President, 'and to pledge support for your cause.'

At the conclusion of the President's speech Mrs. Carrie Chapman Catt. president of the association and long associated with suffrage work, took the platform and congratulated both the association and the President for the straightforward stand he had taken on the subject.

When pressed to make a statement as to what method probably would be used to bring about woman suffrage, President Wilson replied: "We will not quarrel about the method. In the long run that will all adjust itself." Hisses and Some Heckling

Despite the cordial reception that was accorded the President there were several outbursts of hisses and not a little heckling. But the persons who were responsible for the opposition could not be identified.

At the conclusion of the meeting both President and Mrs. Wilson stood on the platform surrounded by prom-inent leaders of the woman's suffrage movement and sang patriotic airs. In an exciting scene the association

earlier in the day overwhelmingly de-feated a resolution asking that its members pledge support only to those candidates for office at the coming election who favor the "Susan B. Anthony" amendment. This amendment calls for the extension of suffrage through constitutional amendment.

WHEAT CROP TO YEILD NINE MILLION BUSHELS

(Associated Press by Federal Wireless) WASHINGTON, D. C., Sept. 9. From calculations made by experts of the department of agriculture, it has been estimated that the heavy storms and floods during August had reduced the annual wheat crop to 611,000,

600 bushels. These figures, according to the department, indicate that the yield this year will be 9,000,000 bushels less than has been estimated to meet the

demands of the country. No shortage of wheat, however, threatens the country, for the reason that the supply carried over from last year's crop will more than offset the loss this year. With this year's crop from last year, there will still be 100,000,000 bushels of wheat available for shipment to foreign countries.

DANES CAN'T AGREE ON SALE OF WEST INDIES

(Associated Press by Federal Wireless) COPENHAGEN, Denmark, Sept. 9 -All chances of reaching an agreement between the conflicting elements in the two houses of parliament, with regard to the sale of the Danish West Indies to the United States, appeared to be hopeless yesterday when an effort to form a coali-

tion cabinet failed. Just when an agreement seemed certain the Radicals, who have fought the sale of the islands since it was proposed, refused to work with the Conservatives upless the general election is postpoued until May, 1918. Leaders of the Conservative party. who are urging the sale of the islands to the United States, went on record as willing to postpone the general election until after the end of the Eu-
